

WHAT WORDS COME TO YOUR MIND WHEN YOU THINK ABOUT SPATIAL DATA SCIENCE

WORD CLOUD

IMPORT

A word cloud visualization centered around the word 'geography'. The word 'geography' is the largest and most prominent, positioned at the bottom center. Above it, the word 'location' is written diagonally. Other words of varying sizes are scattered around, including 'information', 'google', 'physical', 'gis', 'raster', 'census', 'attributes', 'data', 'vector', 'geometry', 'space', 'coordinates', 'georeference', and 'systems'. The words are in a serif font, and the background is a dark gray.
